## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. In the application record, the information disclosure statements filed September 5, 2003 and December 5, 2006 did not include all requisite initials and/or signatures by the examiner. Signed and initialed copies of these information disclosure statements are attached hereto.

### ***Oath/Declaration***

2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:  
The clause regarding "willful false statements ..." required by 37 CFR 1.68 has been omitted.

See also 35 U.S.C. 25(b).

### ***Specification***

3. The following objections to the specification are maintained from the previous Office action:

(A) On page 1 of the specification, for each of the related applications, the application information must be updated with U.S. patent application numbers and patent numbers, if applicable; e.g., "now U.S. Patent No. 6,795,908", etc.

(B) On page 3 of the specification, *each* of the drawing views must be described separately. For example, one explanation for all of Figures 2-11 is not sufficient.

Appropriate correction is required.

4. The previous objection to the specification as failing to provide proper antecedent basis for the claimed subject matter is withdrawn due to the amendment filed on June 18, 2008.

5. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

***Claim Rejections - 35 USC § 112***

6. The previous rejection of claims 1-44 under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement is withdrawn due to the agreed upon changes during the telephone interview of June 17, 2008.

In the amendment of June 18, 2008, applicant made the agreed upon changes to independent claims 1 and 30, but failed to make the changes to independent claim 41. This appears to have been an inadvertent oversight, as suggested by page 11, lines 3-5, of the remarks attached to the amendment of June 18, 2008, where applicant refers to claim 41 as a dependent claim.

Claim 41 may be amended by applicant in response to this Office action, or by examiner's amendment upon correction of all formal matters noted above.

### ***Conclusion***

7. This application is in condition for allowance except for the formal matters noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
